

SUBJECT: Teco 380 - Teco 380 Top

Dear Customers,

We are proud to introduce **Teco 380**, the new Teco car tyre changer.

We are always attentive to market developments and this new tyre changer aligns perfectly with these changes. In addition to meeting your expectations, it will offer you great performance.

The **Teco 380** is the evolution of the **Teco 36** and comes with a new turntable plate capable of working on wheels **up to 24"** (external clamping). An interesting new model that will become a market reference.

Below is the evolution of Teco 36 models into Teco 380 models:

- **Teco 36 Special** -> **Teco 380**
- **Teco 36 Special with Helper** -> **Teco 380 with Helper**
- **Teco 36 Top** -> **Teco 380 Top**

The new **Teco 380**, with pneumatic rear tilting pole, joins the already well-known **Teco 480**, with pneumatic rotation pole, to provide a new generation of tyre changers that can satisfy every need!

Teco 380

Teco 380 Top

As of November, the new codes for **Teco 380** and **Teco 380 Top** models will be available in the price lists. For further information on the new models, please refer to the relevant brochures.
